***Drawings***

1. The drawings are objected to under 37 CFR 1.83(a) because they fail to show the descriptive labels in figures 1-5 as described in the specification. Any structural detail that is essential for a proper understanding of the disclosed invention should be shown in the drawing. MPEP § 608.02(d). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

2. In addition to Replacement Sheets containing the corrected drawing figure(s), applicant is required to submit a marked-up copy of each Replacement Sheet including annotations indicating the changes made to the previous version. The marked-up copy must be clearly labeled as "Annotated Sheets" and must be presented in the amendment or remarks section that explains the change(s) to the drawings. See 37 CFR 1.121(d)(1). Failure to timely submit the proposed drawing and marked-up copy will result in the abandonment of the application.

### ***Specification***

3. Applicant is reminded of the proper language and format for an abstract of the disclosure.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "*The disclosure concerns,*" "*The disclosure defined by this invention,*" "*The disclosure describes,*" etc.

4. The abstract of the disclosure is objected to because of implied phrases.

Correction is required. See MPEP § 608.01(b).

5. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

***Claim Objections***

6. Claims 1-16 are objected to because of the following informalities:

Claim 1 ends in a comma, not a period. Appropriate correction is required.

***Allowable Subject Matter***

7. Claim 17 is allowed.
8. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).
9. The following is a statement of reasons for the indication of allowable subject matter:

The prior art does not disclose or make obvious the claimed method for determining the position of a target item to be tracked. Comprising the claimed step of recording a plurality of initial positions at selected times of the item to be tracked derived from a signal from an external position locating transceiver at selected times. The claimed step of calculating an initial position and velocity from said plurality of positions and times. The claimed step of obtaining accelerometer data along each axis from a multi-axis accelerometer and the claimed step of calculating the current position of the target item to be tracked from said initial position and velocity and said accelerometer data.

***Conclusion***

10. This application is in condition for allowance except for the above formal matters.

11. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

12. A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
